Professional Summary

Senior Full Stack Mobile Developer and Team Lead with 3.5+ years building cross-platform iOS and Android apps in Flutter, plus native iOS apps in SwiftUI, and the Node.js, Express and MongoDB backends behind them. Shipped 5 live production apps and supported 6+ more across product and service companies. Led a team of 3–4 engineers at Octet Solutions and owned end-to-end delivery of OneVision and NaskoChina. Strong in clean architecture, RESTful APIs and Socket.IO real-time on both Flutter and iOS, OpenAI-powered chatbots, payments and wallets, and live video calling.

Technical Skills

- **Mobile (Flutter)**: Flutter, Dart, Android, iOS, Google Maps SDK, geofencing, location tracking, dynamic app links, push notifications, in-app subscriptions
- **Native iOS**: Swift, SwiftUI, MVVM with the Observation framework, REST via URLSession and async/await, Socket.IO, Keychain
- **Architecture & State**: Clean Architecture, MVVM, MVC, Repository pattern, dependency injection, GetX, BLoC, Provider
- **Backend & Real-time**: Node.js, Express, MongoDB (Mongoose), RESTful APIs, JWT auth, WebSockets, Socket.IO, WebRTC, Agora RTC, Dio
- **AI & Chatbots**: OpenAI API (Assistants API threads and runs, GPT chat, image generation), system prompts, structured JSON outputs, support chatbots with live-agent handoff
- **Firebase & Data**: Auth, Firestore, Realtime Database, Cloud Functions, FCM, Crashlytics, ObjectBox, Hive, SQLite, Secure Storage
- **Payments**: Stripe, Google Pay, RevenueCat, Google Play Billing
- **Tooling**: Git (GitHub, GitLab), Docker, CI/CD, Google Play Console, App Store Connect, unit and widget testing
- **Leadership**: Team leadership, code reviews, sprint planning, mentoring, client communication, Agile/Scrum

Professional Experience

Senior Flutter Developer & Team Lead **Jan 2025 – Aug 2026**

Octet Solutions | Lahore, Pakistan (Product-Based)

- Led a team of 3–4 Flutter developers: code reviews, sprint planning and day-to-day technical mentoring
- Owned the product lifecycle: requirements, architecture (Clean Architecture, MVVM), release and post-launch iteration
- Primary client point of contact, translating business requirements into scalable technical plans
- Built location tracking and geofenced clock-in for OneVision with the Google Maps SDK, live on Google Play and the App Store
- Added an OpenAI in-app assistant (Assistants API, structured JSON replies routed by category) and GPT chat with image generation to NaskoChina's Node.js backend
- Published `easy_support_flutter`, an open-source support-chat SDK (chatbot and live agent over WebSockets) on pub.dev

Flutter Developer **2024 – 2025**

Sparkle Solutions | Service-Based

- Built and shipped the Sparkle app end-to-end on REST APIs within tight project timelines

Flutter Developer **2024**

Finjineers | Service-Based

- Shipped Instructor Connect to Google Play and the App Store with Firebase, REST APIs and push notifications
- Front-end work on Blood-bud, Tada, Guava, GoViral and Agora video-calling apps, built on reusable components

Flutter Developer **2023 – 2024**

Nasko Enterprise | Service-Based

- Led NaskoChina, a B2B trade platform with real-time chat and a multi-currency wallet (USD / EUR / RMB), to its Google Play release
- Migrated messaging from Firestore listeners to a Socket.IO backend with a JWT-authenticated handshake: 1:1 and group chat, mentions, reactions, read receipts and settings sync
- Built wallet top-ups with Stripe and Google Pay, QR send/receive, socket-driven payment requests and deep-link routing

Flutter Developer Intern **2022**

Finjineers | Lahore, Pakistan

- Contributed to live client projects while building practical, production Flutter skills

Delivered Apps

Shipped to the stores (5)

NaskoChina (Lead): B2B trade, chat and multi-currency wallet. Flutter, GetX, Socket.IO, Node.js, OpenAI, Stripe. Google Play

OneVision (Lead): Workforce scheduling, timecards and training. Flutter, Google Maps SDK, geofencing, Firebase. Google Play | App Store

Instructor Connect (Core): Driving-lesson booking for a UK client. Flutter, Firebase, REST, FCM. App Store

The Fire Book (Core): Employee records and shift scheduling. Flutter, Firebase, REST, FCM.

Advo Health (Core): Telehealth video consultations. Flutter, WebRTC, RevenueCat, Google Play Billing, Firebase.

Freelance builds

Dessert Wala: Dessert ordering and delivery for a UK shop. Flutter, GetX, native Stripe checkout, Google Sign-In, Geolocator, loyalty points, promo codes, FCM.

SA Speed Aluminium: E-commerce store for aluminium hardware in Pakistan. Next.js storefront on an Express + MongoDB API with JWT auth, Helmet, rate limiting, Cloudinary and email. saspeedhardware.com

Supported (6+)

Sparkle, Blood-bud, Tada, Guava, GoViral and Agora video-calling apps.

Open source

`easy_support_flutter`, a Flutter SDK for in-app support chat (Dart, WebSockets, Socket.IO, Dio).

Education

BSc in Computer Science

Superior University | Lahore, Pakistan | 2018 – 2024

- Coursework: Data Structures, Algorithms, Database Management, OOP, Software Engineering

Professional Flutter Development Course
Corvit Systems | Lahore, Pakistan
